Uponor has used reasonable efforts in collecting, preparing and providing quality information and material in this manual. However, system enhancements may result in modification of features or specifications without notice.

Uponor is not liable for installation practices that deviate from this manual or are not acceptable practices within the mechanical trades.

# Table of Contents

## Complete Design Assistance Manual

<b>Foreword</b> .....	<b>1</b>
<b>Chapter 1: Glossary</b> .....	<b>3</b>
<b>Chapter 2: Radiant Advantages</b> .....	<b>9</b>
History of Radiant.....	9
Radiant and PEX Today.....	9
Radiant Floor Heating Benefits.....	9
What Makes Radiant Floors So Comfortable?.....	11
Uponor Radiant Ceiling Heat.....	14
Uponor Radiant Ceiling Heat Advantages.....	14
<b>Chapter 3: Uponor Tubing Products</b> .....	<b>15</b>
PEX-a Distinctions.....	15
Stress Resistance.....	15
Chemical Resistance.....	15
Oxygen Diffusion.....	16
Handling Guidelines for PEX Tubing.....	16
Reforming Kinked Tubing.....	17
Thawing Frozen Tubing.....	17
Uponor Tubing.....	17
Selecting an Uponor Tubing Product.....	17
Wirsbo hePEX™.....	18
Multi-layer Composite (MLC) Tubing.....	18
Uponor AquaPEX®.....	20
High-density Polyethylene (HDPE).....	20
Ecoflex® Pre-insulated Pipe Systems.....	22
Fire-resistant Standards.....	23
Firestop Listings.....	23
<b>Chapter 4: Uponor Distribution Components</b> .....	<b>25</b>
Uponor Engineered Plastic (EP) Manifold.....	26
TruFLOW™ Manifolds.....	28
HDPE Valveless Manifolds.....	30
Copper Valved Manifolds.....	30
<b>Chapter 5: Economy of Design</b> .....	<b>31</b>
Manifolds.....	31
Thermostats.....	31
Reset Controls.....	32
Design Software.....	32
Distribution Piping.....	32
Optimal Spacing.....	32
Radiant Rollout™ Mat.....	33
Fast Trak™.....	33
Ecoflex.....	34

# Table of Contents

## Complete Design Assistance Manual

<b>Chapter 6: Installation Methods</b> .....	<b>35</b>
Site Preparations .....	35
Installation .....	36
Insulation .....	37
Construction, Expansion and Control Joints .....	38
Slab On or Below Grade with Edge Insulation Only .....	39
Slab On or Below Grade with Under-slab and Edge Insulation .....	40
Slab On or Below Grade Over a Compacted Soil/Sand Bed .....	41
Cap Pour Over Existing Slab with Under-slab Insulation .....	42
Cap Pour Over Precast Plank .....	43
Poured-in-place Slab Over Steel Decking .....	44
Fast Trak 0.5 .....	45
Fast Trak 1.3i .....	46
Poured Underlayment on a Suspended Wood Subfloor .....	47
Poured Underlayment with Sleepers Over a Suspended Wood Subfloor .....	48
Quik Trak Over a Wood Subfloor with Hardwood Floor Covering .....	49
Quik Trak Over a Wood Subfloor with Tile/Linoleum Floor Covering .....	50
Quik Trak Over a Wood Subfloor with Carpet Floor Covering .....	51
Quik Trak Over an Existing Concrete Slab .....	52
Quik Trak Radiant Wall Installation .....	53
Joist Heating Using PEX Clips .....	54
Joist Heating Using Joist Trak Panel .....	55
Radiant Ceiling Using Joist Trak Panel .....	56
Avoid Expansion/Contraction Noise in Joist Trak Installations .....	57
<b>Chapter 7: Heat Loss Considerations and Calculations</b> .....	<b>59</b>
Downward Loss .....	59
Manual Heat Loss Calculations .....	61
Computer Program Design Calculations .....	62
<b>Chapter 8: Radiant Floor System Design</b> .....	<b>65</b>
Radiant Floor Design Tutorial .....	65
Performing Initial Flow Balance Calculations .....	73
System Reminders .....	73
The Complete Design .....	74
<b>Chapter 9: Radiant Ceiling System Design</b> .....	<b>93</b>
Radiant Ceiling Design Tutorial .....	93
Performing Initial Flow Balance Calculations .....	99
Selecting the System Water Temperature .....	99
The Complete Design .....	100
<b>Chapter 10: Commercial Radiant Heating and Cooling Applications</b> .....	<b>113</b>
Commercial Radiant Cooling .....	113
Commercial Design Considerations .....	113
Structural Factors in Commercial Buildings .....	115
Fire-rated Structures .....	116
Controls for Commercial Radiant Floor Systems .....	116
Acceleration .....	116

## Foreword

Uponor, formerly Wirsbo, is dedicated to partnering with professionals to create better human environments. As the North American leading manufacturer of Engel-method crosslinked polyethylene (PEX-a) tubing, Uponor provides system solutions that include both the quality products and technical support required to design, install and operate radiant heating and cooling systems.

As part of this technical support, Uponor publishes the Complete Design Assistance Manual (CDAM) for heating and cooling contractors; heating, ventilation and air conditioning (HVAC) engineers; architects; building officials; building managers; and other individuals interested in

hydronic radiant heating and cooling. The CDAM describes Uponor radiant heating and cooling systems, and it assists the reader with specification, design, installation and inspection of Uponor hydronic radiant floor, ceiling and wall heating and cooling systems. Please contact Uponor for additional technical information about radiant cooling and design.

Through their versatility, Uponor hydronic heating and cooling systems are used in a variety of applications. Please direct any questions about the suitability of an application or a specific design to a local Uponor representative by calling toll free 800.321.4729 (United States) or 888.994.7726 (Canada).

In addition to the CDAM, Uponor provides:

- Other technical literature
- Warranties
- Videos
- Training
- Design services
- Customer support

For information about these support services and tools, please contact your Uponor sales representative or visit [www.uponnorpro.com](http://www.uponnorpro.com).
