

application, yet their flexibility allows them to install easily and quickly without the hassle of added connections required with rigid systems.”

Ecoflex is available in single and twin configurations which feature one or two hePEX plus service

pipes, respectively. The long coil lengths eliminate most buried connections and pipe joints, saving time and money while also reducing the risk of potential leak points.

“Our goal at Uponor is to provide our building industry partners with products and systems that make their jobs easier and their projects more efficient,” says Hudoba. “Offering Ecoflex in ASTM sizes addresses our customers’ needs and continues our mission for superior system solutions.”

**Uponor Corporation** is a leading supplier of plumbing, fire safety and radiant heating and cooling systems for the residential and commercial building markets across North America and Europe, and a market leader in municipal infrastructure pipe systems in the Nordic countries. Uponor Corporation employs 4,200 people in 27 countries and is listed on the NASDAQ OMX Helsinki Ltd., Finland.

**Uponor, Inc.** is headquartered in Apple Valley, Minn. For more information, visit [www.uponor-usa.com](http://www.uponor-usa.com) or call (800) 321-4739.

**Uponor Ltd.** is based in Mississauga, Ont. For more information, visit [www.uponor.ca](http://www.uponor.ca) or call (888) 994-7726.

The ASTM Ecoflex line uses Uponor’s durable ProPEX® expansion fittings, featured above, or WIPEX™ dezincification-resistant (DZR) brass compression fittings.
